

Device Description:

ATX422 module provides control of eight external executive devices with build-in transistors. For all receivers there is a common ground without galvanic separation. The module has independent certificate from certification body that confirms meeting the requirements of ATEX Directive, what allows the module to be used in any hardware configuration along with other PLC controller modules, matched to the customer needs. The construction of the module meets the requirements of IEC61131 norm in range of standarization of functional and operational features and programming process. To keep appropriate intrinsically safe feature the module should be placed in a casing providing at least IP54 protection degree and meeting the requirements of EN 60079-11:2012 norm.

ATX422

▼ Technical characteristics:

ATEX certificate number FTZÚ 13 ATEX 0167X

Supply parameters:

Supply voltage U_N 6,5 ÷ 15 VDC Maximum supply voltage U_1 15,8 VDC Maximum supply current I_1 2,73 A

Maximum current draw from battery $I_{\mbox{\tiny AK}}$

for version RS485 / I2C < 10 mA for version CAN < 15 mA

Local communication bus RS485 / CAN / I2C (possible versions

of module implementation)

Transmission speed for interfaces:

I2C 100 000 bps

8

RS485 9600, 19200, 38400, 57600, 115200 bps

CAN 20000,50000, 125000, 250000,

500000,1000000 bps

Number of external executive devices controlled with build-in transistors

th build-in transistors

Normal working conditions:

Casing type I M1 Ex ia I Ma

module placed in device with lp54 casing protection degree and meeting the requirements of EN 60079-11:2012 norm

Working temperature range 0 ÷ 60 °C
